The dark spell of covid had shut things up, had posed several challenges and we all with all your support braved the odds and rose to the occasion as the saying goes, 'when the going gets tough, the tough gets going.'

To begin with, we had to prepare the children for a renewed beginning for surely, it was bringing them back from the online mode to the classroom mode. While the safety of their health was an immediate priority, we had definite goals set for this academic year. Our motto has always been to provide children with good quality learning in an environment friendly and fearless atmosphere; along with ample opportunities for the children to showcase their talents in sports and extra curricular activities.

Academics is the core focus of our school and all possible efforts have been taken and we will continue to take to ensure academic excellence. It gives us great satisfaction and encouragement when we look back at the result of 2021-22 X and XII batches. Our students have rephased the history of The White School by securing 100% result and Muhammed Rabeeh of class X secured 100% in Arabic.
